

CABLE TELEVISION & COMMUNICATIONS ASSOCIATION OF ILLINOIS

The Cable Television and Communications Association of Illinois (CT & C) acting in the interests of its member companies lends its support to the recently formed ad hoc consortium of business interests throughout the state encouraging the legislative leaders of the Illinois General Assembly to resolve the financially crippling Medicaid and pension issues. The CT & C recognizes that financial health of the State of Illinois cannot be assured absent a solution to the problem of the rapidly escalating Medicaid and pension obligations and it calls upon the members of the General Assembly to fairly balance the legitimate interests of Illinois retirees and needy citizens with the fiscal realities facing out state in uncertain economic times.
